PROJECTS

Raavaya (Frontend Project) | [Live Link](#)

This is Tour and Travel website that I created using HTML 5, CSS 3, and Bootstrap 5. I designed responsive pages with animations and built interactive sections for travel packages and bookings.

Ecommerce Web (Frontend + Backend Project) | [Source Code](#)

This is my first Node project where I created a e-commerce web application using Node.js, EJS, and MongoDB. I implemented secure authentication and built an Admin Dashboard to manage users, products, and orders.

Flipkart Clone (Frontend Project) | [Live Link](#)

This project is a clone of Flipkart's index page where I'm using HTML 5, CSS 3, and Bootstrap 5. I focused on responsive design and interactive UI components for product listings and navigation.

Fox University (Assignment) | [Live Link](#)

In This frontend project where I created the Fox University website using only HTML 5 and CSS 3. This assignment helped me strengthen my fundamentals in web development, focusing on clean layout, effective design, and responsive pages that work well across devices.
